## Necessary documents for import to Singapore

- ✓ Copy of passport
- ✓ Inventory of used household goods, with values expressed in Canadian dollars, dated and signed, for insurance
- ✓ Destination informations
- ✓ Declaration of facts

### **WARNING**

- *Required documents are very important. Customs in Singapore can be very strict, and storage at the port can be costly, so it is necessary to have a complete file for quick clearance.*
- *Please note that used household goods are duty free if they have been in the owner's possession and utilization for at least 6 months.*
